4. Claims Architecture & Operational Workflow

Claims can be processed via Cashless settlement or Reimbursement mechanisms depending on the chosen healthcare facility provider.

4.1 Cashless Claim Process (Network Hospitals Only)

Cashless services are strictly restricted to HealthSecure's empanelled Network Hospitals. The standard operational steps are detailed below:

1. **Notification:** For planned treatments, notify the company 72 hours prior to admission. For emergency admissions, notify the company within 24 hours of hospital registration.
2. **Pre-Authorization Request:** Submit the pre-authorization form along with diagnostic documents signed by the treating doctor to the hospital's Third-Party Administrator (TPA) desk.
3. **Verification & Issuance:** HealthSecure's medical team reviews the clinical records. An initial approval or request for information (RFI) is generated within 2 hours.
4. **Final Settlement:** At discharge, the final billing summary is shared with the company. The approved amount is paid directly to the hospital, and the insured pays non-medical expenses.

4.2 Reimbursement Claim Process (Non-Network Hospitals)

When treatments are obtained at a non-network facility, bills must be settled upfront by the Insured. Reimbursement files must be sent within 30 days of discharge containing:

- Duly filled and signed Claim Form Part-A and Part-B.
